

Endtruck Selection for Double Girder Cranes

Chart shows endtruck wheel diameter and wheel base in millimeters separated by period e.g., 130.2700 means 130 mm wheel diameter and 2700 mm. wheel base.

All ZLW and ZLK endtrucks are Model HSZ.

ZLW Double Structural Girder Cranes

Capac. (Tons)	Maximum Span (feet)							
	32	36	40	44	48	52	56	60
5		130.2700			130.2900		160.2900	
7.5		160.2700			160.2900			
10							200.2900	
13.75		200.2700						
15							250.2900	
20		250.2700						
25							315.2900	
30		315.2700						
35					400.2900			
40								

ZLK Double Box Girder Cranes

Capac. (Tons)	Maximum Span (feet)									
	28	32	36	40	44	48	52	56	60	64
3										
5			130.2700						130.2900	
7.5							160.2900			
10			160.2700							
13.75			200.2700				200.2900			
15									250.2900	
20			250.2700							
25										
30			315.2700						315.2900	
35										
40									400.2900	
50										500.3200

Spans through 64 feet

Capac. (Tons)	Maximum Span (feet)								
	68	72	76	80	84	88	92	96	100
3									
5	160.3200		160.3800					200.4600	
7.5	200.2900								
10	200.3200		200.3800						
13.75								250.4600	
15	250.3200		250.3800						
20								315.4100	
25			315.3800						
30	315.3200								
35							400.4100	400.4600	
40	400.3200		400.3800						
50	500.3200		500.3800				500.4100	500.4600	

Spans 64 through 100 feet
