A Total Service Program for Overhead Cranes

***...a program that can be designed with
your individual service needs in mind!***

As part of EMH's commitment to excellence in the Material handling Industry, our service program continues that commitment.

EMH provides service, repairs, parts and inspections which are vital to your

company's continued productivity. EMH can offer any or all of these maintenance related services.

As part of EMH's commitment, we have taken great strides to ensure that our customers' needs are responded to in both a timely and professional manner to minimize your crane's down time.

***Protect your investment.
Keep your workplace operating efficiently.
Provide a safe work environment.***

The EMH Crane Service Contract

All Service Contract Packages include the following:

**OSHA Compliance Inspections
(includes one inspection per year as required)**

Special Hourly Rates

Discount on Parts

Priority Response for Service Contract Holders

Individual Maintenance Tracking folder for Each Crane

One Two Year Service Contracts Available upon Request.

Let EMH lift the burden of maintaining your crane by taking advantage of our service package. You will ensure that your crane is safe and operating at its full potential.

EMH Keeps Your Cranes Running at Peak Efficiency

Calibration of limit switches, programming drives for a specific application, on-site OSHA inspections, and crane component repairs are just a few of the services we offer.

Recommended Spare Parts

Be prepared for unforeseen emergencies. Stock easily serviced parts and wear parts!

- Receive a suggested spare parts listing.
- Stock easily serviced parts and wear parts such as fuses.
- Reduce down time.
- Ensure proper crane operations.
- Most importantly - save money!
- See the spare parts guideline in your crane's maintenance manual.
